

Clubhouse Opening 14th August

Dear Member,

Please note that we plan to open the two lounges in the clubhouse for food and drinks from the 14th August. Repairs to the affected areas in the lounges had taken longer than expected but I am happy to say work is nearly complete and it is hoped we will have most or all of the scaffolding removed for this date. Details of use:

Service will be from 8am to 4pm weekdays and 7.30am to 4pm weekends, details on menus/ordering will follow shortly.

Cleaning staff will be on site all day ensuring areas are cleaned, sanitised and safe.

Due to social distancing there may be occasions when the members lounge is full, staff will try their best to accommodate you in the main lounge however even with the floor space of both lounges we may still struggle to accommodate all.

We will be keeping the outside seating beside the pro shop in place for the time being as well.

There will be no requirement for members to book to use the lounge but you are required to supply your name and that of any guests you may have on entering the lounge.

It is uncertain how many members and visitors will use these areas and as such it would be impossible to cover the potential costs of having staff return in full. I am pleased to say that the staff have agreed to work to a plan to take us through to next Spring which includes time spent on furlough and part time working to fit in with demand. It is clear that even with these measures that income from the clubhouse will not fully cover the cost of running this department this year and as such I have to thank Wemyss and March Estates in agreeing to cover costs which has allowed us to retain all staff during this turbulent period.

In keeping with guidelines we will not be in a position to allow the use of the locker rooms, as soon as the guidance changes we will of course open them up.

I hope you can enjoy what is another return to something closer to the pre lockdown Craigielaw, please note it is important going forward that we receive your support, we will do all we can to ensure you have a safe and enjoyable clubhouse again.

Kind regards
Derek Scott
