

## Members Update 19<sup>th</sup> July 2021

Further to the Scottish Governments announcement that all areas of Scotland have moved down to Level 0 I am pleased to make you aware of the following changes to restrictions.

### Course

From today (19<sup>th</sup> July) course furniture will be replaced around the golf course, this includes rakes in bunkers. Please note that in the short term we will keep the current ruling on preferred lies in bunkers until the use of rakes becomes mainstream. If you remain uncomfortable using one of the rakes then please remember to smooth out footprints with a club or foot. The ability to remove flag sticks from the hole is also permitted.

### Clubhouse

Up to 10 people from 4 households can now meet inside the clubhouse as well as 15 people from 15 households can meet outside.

I would remind all members that the use of face coverings is still required in the clubhouse when not sitting at a table to eat or drink.

I hope the following changes help to provide more enjoyment of the facilities at the club.

Derek Scott
